Career Ladders Project

The Dual Enrollment Game

Research shows that high school students who take community college courses through dual enrollment get better grades in high school and are more likely to enter and stay in college — and attain a degree or a certificate.

The object of the game is to earn college credit. Taking the role of students, players make progress thanks to factors on the yellow cards, or they are forced into detours described on blue cards.

At the beginning of each turn, a player rolls the dice and moves the matching number of spaces. Depending where they land, one of three things happens next:

1. If they land on a blank square, or a square that contains the *top* of a ladder or *bottom* of a slide, they pick a card of the same color as the square, read the card, and follow its instructions.
2. If a player lands at the *foot* of a ladder, they get to climb it and advance but do not draw a card. Or...
3. Watch out! — if they land at the *top* of a slide, they tumble to its bottom without drawing a card.

The first to the top earns college credit!

Career Ladders Project promotes equity-minded community college redesign.

We collaborate with colleges and their partners to discover, develop, and disseminate effective practices. Our policy work, research, and direct efforts with colleges lead to system change—and enable more students to attain certificates, degrees, transfers, and career advancement.

BENEFITS OF DUAL ENROLLMENT?

- More likely to graduate high school.
(Karp et al., 2007; Rodriguez, Hughes, & Belfield, 2012; Cowan & Goldhaber, 2013; Haskell, 2016)
- More likely to enroll in college than their non-participating peers.
(Karp et al., 2007; Speroni, 2011; Rodriguez, Hughes, & Belfield, 2012; Struhl & Vargas, 2012; Cowan & Goldhaber, 2013; Taylor, 2015)
- More likely to complete college than their non-participating peers.
(An, 2013; Struhl & Vargas, 2012; Taylor, 2015)
- Can be particularly effective for young men of color, low income and 1st gen students
(Rodriguez, Hughes, & Belfield, 2012; Struhl & Vargas, 2012)

California School Dashboard

The Fall 2017 Dashboard shows how districts and schools are performing on test scores, graduation rates and other measures of student success.

Enter a portion of a school name, district name, or county office of education, and then select the Search button to obtain a list of results.

Color-Coded Dashboard Ratings

Blue (Highest)

Green

Yellow

Orange

Red (Lowest)

The dashboard ratings factor in the current **status** of schools and districts on different measures (like graduation rates, suspensions, math and English test scores, etc.) and the **changes** on these measures over time (whether scores are going up or down). The school or district color-coded ratings are a combination of **status** and **change** on these measures, **blue** indicating the highest score and **red** indicating the lowest.

Graduation Rate Indicator Five-by-Five

Here is an example of how the status and change in district performance are combined to come up with the color-coded rating for graduation rates.

Graduation Change

Graduation Status	Level	Graduation Change				
		Declined Significantly by more than 5%	Declined by 1% to 5%	Maintained Declined or improved by less than 1%	Increased by 1% to less than 5%	Increased Significantly by 5% or more
	Very High 95% or greater	N/A	Blue	Blue	Blue	Blue
	High 90% to less than 95%	Orange	Yellow	Green	Green	Blue
	Median 85% to less than 90%	Orange	Orange	Yellow	Green	Green
	Low 67% to less than 85%	Red	Orange	Orange	Yellow	Yellow
Very Low Less than 67%	Red	Red	Red	Red	Red	

The Dashboard and Alternative Schools

- Currently, alternative schools have empty pages on the California School Dashboard
- The California Dept. of Ed is currently developing alternative school-specific indicators.
 - One-Year Graduation Rate
 - College/Career Indicator
 - Local Indicators
- The State Board of Ed. has already adopted the one-year graduation rate

College & Career Indicator

Metrics for All High Schools

- SBAC Assessments
- A-G completion
- State Seal of Biliteracy
- Articulated CTE Courses
- Stand Alone Courses (Emergency Medical Technician, Certified Nursing Assistant)
- Leadership/Military Science
- Passage Military Entrance Exam
- Work-based Learning and Internships
- Industry Certification
- Golden State Seal Merit Diploma
- AP and IB exams
- **Dual enrollment**

Metrics for Alternative Schools

- Exploratory Work Experience Education (EWEE)
- General Work Experience Education (GWEE)
- *CTE Work* Experience Education (CTWEE)
- Workability Program Courses
- Workability Work-Based Learning
- Workforce Readiness Certificate
- Completion of a Pre-Apprenticeship Program
- State or Federal Job Program

DE Resources

DE TOOLKIT

DUAL ENROLLMENT TOOLKIT

The Career Ladders Project and The Research and Planning (RP) Group for California Community Colleges, in partnership with the California Community Colleges Chancellor's Office, have identified and organized a variety of tools based on research and work in the field. These tools will help community colleges and their secondary partners develop and maintain dual enrollment offerings. Funded by the California Community Colleges Chancellor's Office, Rancho Santiago Community College District, and the James Irvine Foundation.

— Dual Enrollment Toolkit: A Resource for Community Colleges and School District Partners

The Dual Enrollment Toolkit is a resource for secondary and community college partners. This resource will highlight and describe promising practices related to providing historically underrepresented high school students with opportunities to earn college credits at California Community Colleges (CCC) while they complete the requirements for their high school diplomas. The intent is to provide specific, concrete guidance and evidence to interested college administrators, faculty and staff who are planning to build partnerships with K12 districts to support dual enrollment efforts on their campuses and/or within their districts.

Bay Region Dual Enrollment Administrator Guidebook

Bay Region Dual Enrollment

Administrator Guidebook

OVERVIEW If you already know a bit about Dual Enrollment (Dual E), and even if you have a Dual E program in place, this guidebook is for you! The purpose of this guidebook is to help administrators and educators implement and improve their Dual E programs by documenting emerging and promising practices in challenging Dual E areas, including student safety net, professional development, data and administrative procedures.

Before reading this document, be sure that you have first reviewed the [California statewide Dual Enrollment Toolkit](#), developed by Career Ladders Project, which provides important legal guidance on Dual Enrollment.

DE PD

Dual Enrollment Professional Development

- Outcomes for college administrators, staff, counselors, and faculty:
 - Understand key differences in teaching high school vs. college students
 - Equip everyone to make changes in pedagogy, classroom management to meet the needs of high school students
 - Have tools to create shared guidelines for community colleges and their K-12 partners around behavior, health, instructor obligations, and other issues related to dual enrollment

Session Content:

Pedagogy and Classroom Management in High School
Pedagogy and Classroom Management with Special Populations
K12/Community College Partnerships and Connections
Data and Student Support

Creating a Dual Enrollment Partnership

Professional development for K-12 and college practitioners!

Career Ladders Project is producing workshops, information sheets, and other resources on various topics in building and managing dual enrollment, or early college, in California.

DE Examples

Reedley College

QUICK TAKEAWAYS: DUAL ENROLLMENT AT REEDLEY

- **High school students enrolled:**
2,300 per semester in 2017-2018
More than 10 times 2014-2015 participation
- **Ways to participate:**
Through pathways, independently, or through ROP
or middle college
- **Notable elements:**
Work-based learning, intensive student supports,
faculty training

Norco College

QUICK TAKEAWAYS: DUAL ENROLLMENT AT NORCO

- **High school students enrolled:**
304 students per semester in 2017-2018
Up from 0 in 2014-2015
- **Ways to participate:**
Through pathways or middle college or independently
- **Notable elements:**
Intensive student supports, college readiness course,
advising at each high school
Pathway design; includes math and English

East Los Angeles College

DUAL ENROLLMENT POLICY OPPORTUNITIES

- Improve data collection and management to learn how many students participate, improve coordination, and plan more effectively
- Streamline enrollment process
- Prioritize policies to help colleges build staff capacity and coordination
- Encourage supports for underrepresented students
- Align dual enrollment with other reforms

thank you
